

## MALVA vase

A fascinating contrast of a perfect  
combination of organic and inorganic  
materials

### Use:

MALVA can stand alone as a perfect complement to any room.

You can use it with a bunch of flowers slightly coming out from the glass. Its transparency delicately surrounds them protecting their beauty.

The only glass model looks gorgeous with long stem important flowers.

### Care:

Handle with care. Fragile glass.

### Cleaning:

The vase should be washed by hand and laid on its side to dry. Use light detergent, soft sponge or brush and gently dry with a soft cloth. For the wooden part just clean it with a soft damp cloth and renew if needed with natural neutral wax.

### Content of the box:

1 vase / net weight 3,5 kg.

### Packaging:

single tube 100% from recycled cardboard, produced with solar energy and aluminum cap.

The wrapping paper is from responsible resources FSC.
